

H₂O Guard™ - C2000-GAC/KDF CHLORAMINE REMOVAL

Counter Top Water Filtration System

H₂O Guard™ Water Filtration Systems

are high performance water filtration systems designed to substantially improve the quality of your drinking water. They provide great tasting water while producing water that is cleaner, healthier and safer. They transform your water from questionable to premiere quality with minimal maintenance and offer you the peace of mind you and your family deserve.

H₂O Guard™ Water Filtration Systems

address a broad range of issues relating to your drinking water like taste, odor, chlorine and most importantly, items of health concern that are paramount to your health and wellbeing.

The H₂O Guard™ U2000-GAC/KDF

incorporates a multi-stage water filtration cartridges designed to provide you with 800 gallons of premium quality drinking water for pennies per day. H₂O Guard™ has enhanced and combined proven filtration technologies to provide you with a product that will give you premium quality water.

CARTRIDGE 1 - H2OG-SED5

The H2OG-SED5 prefilter is a specially manufactured high performance sediment filters designed to provide high dirt holding capacity, reduce sediment and rust particles and extend the life of additional filters. Its micro-fine web design traps more particles and helps keep other filters in the filtration system working at optimal performance.

CARTRIDGE 2 - H2OG-GAC/KDF

The H₂O GAC/KDF 85 filter uses an advanced proprietary replaceable cartridge with a granular catalytic coconut shell carbon (GCAC) and KDF 85 process media to remove chloramine, chlorine, organic volatile compounds (VOC) and other contaminants responsible for taste, appearance and odor that may be present in municipally supplied water.

H₂O Guard™ - C2000-GAC/KDF Chloramine Removal

Counter Top Water Filtration System

PRODUCT BENEFITS

- ✓ 5 Micron Filtration
- ✓ Superior Taste and Odor
- ✓ Chloramine and Chlorine Reduction
- ✓ Lead and VOC Reduction
- ✓ 800 Gallon Capacity
- ✓ Bacteriostatic Media - Prevents Bacteria growth
- ✓ Cartridge Replacement Indicator (CRI)
- ✓ Carbon Block Certified by NSF®
- ✓ Quick & Easy Install
- ✓ Reduces most EPA-listed contaminants

PRODUCT SPECIFICATIONS

Rated Capacity:	800 gallons (3028 L)
Micron Rating:	5μ
Replacement Filter:	H2OG-SED5, H2OG-GACKDF
Flow Rate:	.75 GPM (2.84 LPM) @ 60 psi
Maximum Working Pressure:	100 psig (689.5 kPa)
Minimum Working Pressure:	30 psig (206.8 kPa)

Maximum Operating Temperature: 100 °F (38 °C)

Minimum Operating Temperature: 34 °F (1 °C)

COLORS AVAILABLE

NOTICE: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

** NSF Standard 53 Certification Pending.*

*** This water filtration device has not finalized certification with NSF International and has not been approved by the California Water Resource Control Board, therefore, it is not available for sale in the State of California for the contaminant reduction claims listed.*

H₂O Guard™ Cartridge Replacement Indicator (CRI)

The H₂O Guard™ Cartridge Replacement Indicator (CRI)

is another way H₂O Guard™ helps you safeguard your drinking water. The CRI measures time and informs you when it's time to change your filter. This is an added convenience which takes away the guess work and helps ensure your drinking water system is working at optimal performance. Two LED lights update you on the systems operation. The **YELLOW LED** indicates less than 10% of filter capacity remains (*it's time to order a replacement cartridge*), and the **RED LED** indicates the filter capacity has been reached, and it's time to install new cartridge.

Peace of mind made easy!
