

Replaceable Cartridge Countertop with Cartridge

H2O-RCT/H2O-RCT-CB

Overview

The legacy **H2O-RCT** is a white, countertop filtration system with a replaceable cartridge. Its standard 10" cartridge uses **KDF® 55** and premium **coconut-shell granular activated carbon (GAC)** to reduce **chlorine**, VOCs, and other contaminants that affect water taste, odor, and clarity. The **RCT-CB** model features a **1-micron carbon block** cartridge. It installs easily on most standard kitchen faucets and includes a diverter valve for on-demand filtered water.

Features and Benefits

- Replaceable Cartridge System with 4,000 gallon capacity
- KDF®/GAC Filter Media
- Installs in minutes without tools
- Includes kitchen faucet diverter and adapters that fit most standard faucets
- Long-reach swivel spout
- Bacteriostatic media prevents bacteria growth (algae, fungi)
- Improves taste and color, eliminates odors
- Reduces most EPA listed contaminants
- Includes prorated warranty
- Available in 1 micron carbon block cartridge. 2,500 gal. capacity

Replace after	Capacity* is reached or 12-15 Months (Whichever comes first)
Recommended Flow	0.5 -1 gpm
