ICF Calcite Series
Inline Filters

✓ Superior design to minimize channeling

✓ Neutralize Acidic or Low PH water

✓ Premium Calcite material

✓ 1/4" quick connections

HYDRONIX ICF CALCITE SERIES FILTERS

utilize a naturally occurring calcium carbonate media that has self-limiting properties. When properly applied, Hydronix ICF-CAL10Q inline filters correct the pH in water only enough to reach a non-corrosive equilibrium. It does not overcorrect under normal conditions. Hydronix ICF-CAL10Q process water so that upon contact with the specially processed calcite media, acidic waters (i.e. Reverse Osmosis) slowly dissolves the calcium carbonate to raise the pH.

HYDRONIX ICF CALCITE SERIES FILTERS

offer a safe, cost effective solution to acidic water and raise pH levels without employing costly medias. Calcite is safe to use in drinking water applications and offer a viable alternative to you acidic water needs.

CALCITE FILTER - 2" DIAMETER SPECIFICATIONS						
	Part Number	Description	Case Quantity	Box Dimension (Inches)	Weight (lbs)	Weight (kgs)
	ICF-CAL10Q	Calcite Inline Filter: 2" x 10", 1/4" Hydrofit™ QC	25	10.5 x 11 x 11	27.5	12.47

*WARNING: Do not use with water that is microbiologically unsafe or of unknown quality without adequate disinfection before or after the system.

ACIDIC / LOW PH WATER CORRECTION	
Coconut Shell Carbon	
Service Life	6 mo or 1200 gal (4543 L)
Maximum Flow	.50 gpm (1.9 lpm)
Maximum Pressure	125 psi (8.6 bar)
Maximum Temperature	100 °F (38 °C)
Minimum Temperature	35 °F (2 °C)

Materials of Construction

Shell:	Polypropylene
Media:	Calcite
Inner Pads:	Polypropylene

Available Port Sizes

• 1/4" Quick Connect
